Be an angel to children fighting Congenital Diaphragmatic Hernia at

 **CHERUBS**

2016 Sponsorship Form

Congenital Diaphragmatic Hernia is the most underfunded life-threatening birth defect in the United States.

Every year, 1600 babies are born with Congenital Diaphragmatic Hernia in the United States alone. Worldwide, a baby is born with CDH every 10 minutes. 50% of those babies will not survive. CDH occurs when a baby's diaphragm fails to fully form, allowing abdominal organs to enter the chest cavity and preventing lung growth. The cause is unknown.

While CDH is as common as Spina Bifida and Cystic Fibrosis, it receives only 2% of the national funding and attention that those two other worthy medical conditions receive. We are fighting for research funding and programs to help these underserved children and their families.

*100% of all proceeds from all events will go directly to the **CHERUBS** organization to further advance research, awareness and support for affected families – past, present and future. With just a 10% overhead, **CHERUBS** is the world's largest CDH charity, helping over 5500 families in 60 countries. 501(c)III non-profit #56-1916661, **CHERUBS** is a certified 5-star charity and recognized GuideStar Exchange, Gold Participant.*

Become a Sponsor
